They Could Not Get On to the Curves of the Petersburg's Pitcher.

PETERSBURG, VA., July 18,-Special.-A large audience, many of whom were ladies, witnessed this afternoon's (probably the best) game of ball played since the organization of the tri-city league. The game was between the Petersburgs and Virginias, and was played throughout with a vim and energy rarely witnessed on a ball field. The fielding of both teams was far above the average. The outfielders accepted every chance, and it was re-served for Wells in the last inning to make the only error of the outfielders. The visitors could not touch Quaries. He was simply invincible, allowing them only two hits, and giving only one base on balls. The home team had no difficulty in gauging Wizard Host's curves, get-ting a home-run, one two-bagger and six singles. The members of both teams played excellently, but the batting of the nome team won the game. The Petersburgs were first at the bat, and were re burgs were first at the bat, and were re-tired in one, two, three order. are for Tyler.

RADFORD, VA., July 18.-Special.-The Tyler Club sends out this bulletin to-day: As stated in our first bulletin, we esti-mated that Tyler would receive over 850 delegates; 489 have been chosen, of which Tyler has 193, O'Ferrall has 242, Buford 25, doubtful 35; of the delegates yet to be elected this week Tyler will receive 41, O'Ferrall 10; this will make up to the close of the week, Tyler 234, O'Ferrall 252. Over one-third of the delegates will have been elected, and our estimate is very l'tile lersened. The counties and cules yet to elect will increase our calculations, and more than make up losses, as our strongest counties have yet to select dele-gates. As stated in yesterday's bulletin we had only calculated on half of Roa-noke city, and felt doubtful as to these, and also eleven votes lost in Smith county, a solid vote in Winchester, and nock, and a right to claim a division in Clarke more than offsets our losses in the Ninth district. The newspaper reports of this date do not at all agree with our private information. Lancaster is doubtful; Southampton has only eleven es instead of fifteen as reported, and is divided; Giles, Lee and Dickenson are solid except three or four votes. Buch-anan has not reported, but will be solid. Several counties have postponed their conventions until next week, hence the charge in claims to the close of the week. Let the other side publish how far short they are to date on their estimates.

Mr. H. C. Preston, president of the Tyler Club at Radford, says: Craig, Giles, Dick-enson, Buchanan and Lee counties solid for Tyler except perhaps three in Lee.

The Lee County Delegation.

JONESVILLE, VA., July 18.—Special. A mass-meting of voters of Lee county was held to-day for the purpose of electing delegates to the State Gubernato-rial Convention. A motion to allow each of the five districts to appoint their dele gates and alternates, and the county-at large one delegate and one alternate was adopted. DEATH FROM FRIGHT. Cases in Which it Has Undoubtedly B en Known to Occur.

"I have interested myself somewhat in loking up unusual causes of death, said Dr. Eledr. "and I have met several wellauthenticated instances where fright was the cause. The English Surgeon-General Francis tells of a drumer in India, across whose legs a harmless lizard crawled while he was asleep. He was sure that a cobra had bitten him, and it was too much for his nerves and he died.

"Frederick I., of Prussta, was killed by fear. His wife was insane and one day she escaped from her keeper, and, dabbling her clothes with blood, rushed upon her husband while he was dozing in his chair. King Frederick imagined her to be the white lady whose ghost was believed to invariably appear whenever the death of a member of the royal family was to occur, and he was thrown into a fever and died in six weeks.

and died in six weeks.

"But perhaps the most remarkable death from fear was that of the Dutch painter, Pentman, who fived in the seventeenth century. One day he went into a room full of anatomical subjects to sketch some death heads and skeletons for a picture he intended to paint. The weather was very subject, and while sketching. er was very sultry, and, while sketching, he fell asleep. He was aroused by bones dancing around him, and the skeletons suspended from the ceiling clashed to-

"In a fit of horror he trew himself ou of the window, and, though he sustained no serious injury and was informed that a slight earthquake had caused the motion among his ghostly surroundings he died in a few days of nervous tremor I could cite many other cases where the sock to the nervous system which we knew as fright has produced death."— Washington Post.
